

Request for Simulation of New Distillation Column

Finepac[®] Structures Pvt. Ltd.

Company Name :

Address

Project Name

Date :

Distillation Process : Continuous / Batch / Both

PROCESS DESIGN PERFORMANCE

Parameter	Feed		Top Product		Bottom Product	
	Operating	Design / Range	Operating	Design / Range	Operating	Design / Range
Temperature (°F)						
Pressure (Psia)						
If Batch Column - Flow Rate (lb)						
If Continuous - Flow Rate (lb/hr)						
Component Composition (% wt)						
If Batch Column						
Batch Capacity (lb)						
Required Batch Time (hr)						
Pressure Drop across Column						

Is the material to be processed contains dissolved or un dissolved solids						
If dissolved solids ,are they going to precipitate out inside the column ?						
Is material corrossive / non corrossive ?						
Suitable material of construction for your service?						
Special issues to be taken for Design						
Remark / Comments
